STAT

In your referenced memorandum, you indicated that because of strength and FTE problems in the DCI area, strength additions to the DCI area offices would not be authorized unless the office was within its FY 83 FTE authorization. As I am sure you are aware, the Office of Personnel (OP) is the only DCI area office with a severe problem. This problem stems from the need to increase staffing to handle Agency recruitment requirements. In FY 82, OP was authorized by the Agency Comptroller to exceed authorized staffing  to handle escalating recruitment requirements. In FY 83, OP received an increase  to cover a portion of the authorized overage  OP will be required to exceed the FY 83 office authorization  to handle current requirements. In view of OP's required overage, it is requested that EODs and transfers to OP not be curtailed as long as the office is within  FTE authorization.
